DETAILED ACTION

Allowable Subject Matter

Claims 1-26 are allowed.

The following is an examiner's statement of reasons for allowance: The above mentioned claims are allowable over the prior arts because the CPA (Cited Prior Arts) of record taken singly or in combination fail to anticipate or render obvious the specific added limitations, as recited in independent claims 1 & 12 and subsequent dependent claims.

The CPA does not teach or suggest a method/system of constructing a display on the end-user's computer which includes virus tracking information in the form of a map which shows worldwide virus infections. The CPA also fails to teach/suggest a generation by the anti-virus scanning program which displays a virus count graph showing statistic counts of prevalent viruses worldwide during a predetermined time frame. The CPA further fails to teach or suggest that the display includes a view menu, track menu, select menu, time period menu and a display block showing worldwide virus infection rates.

Various online websites have been noted on the record (noted on the search history under NPL Google Search which also includes the first page of the search results) that contain a worldwide virus map, however these sites fail to pre-date the filing date of the instant application which is 10/30/2000 (as checked through the way-back machine also noted on the search history). Furthermore, even if these sites had predated the filing date of the instant application they still fail to disclose the particulars of the display including a view menu, track menu, select menu, time period menu and a display block

Art Unit: 2137

showing worldwide virus infection rates on the display generated at the end-user's computer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
